

## **To the Supplier Community:**

Many thanks for your interest in the upcoming MMIS replacement procurements. This is an update to the Virginia MMIS Replacement with a Medicaid Enterprise System (MES). On **January 30, 2015** DMAS posted an MMIS High Level Timeline for the Procurement Process. We are announcing an update to that Timeline.

The 2015 Timeline gave a High Level Targeted Milestone for publishing the Request For Proposals by **January 2016**. After 12 months of working with CMS and other states, we are releasing Target Publishing Dates for 6 RFPs. We are currently in the process of reviewing our documents with the state agency "VITA" and the Office of the Attorney General for approval with compliance to Virginia Information Technology procurement practices. Also, we are reviewing our documents with the Centers for Medicare and Medicaid Services for alignment with and approval of the Medicaid Information Technology Architecture (MITA) Version 3.0 compliance approach.
